

Quantum Energy Experience

The Field of possibilities mirrors what each individual is seeking at their core. In doing so, it reveals a deeply felt clarity and offers the possibility of alignment on their path. Discover the interconnectedness within and experience the creative aspects of your life.

The Quantum Energy Experience (QEE) opens possibilities in which you can transform what is happening now into useful information and Light. Your intention uses this Light along with information from your intuitive self, which supports and aligns with the Divine Will.

The QEE creates a unique and what can only be described as magical environment where anything is possible. You get an opportunity to shed your preconceptions and limiting concepts; to enter a highly supportive playground for transformation. Once the rational left brain realizes that a lot of what is being taught is actually based on some of the key concepts in Quantum Physics some of the 'old guard consciousness' can let go of its' precarious hold on reality to be replaced with a sense of fun. Not only do you learn to think outside of the box, you begin to suspect that it doesn't really even exist. When you see your world with new eyes the way you perceive your life takes on new colorations and hues.

Individuals often are pleasantly surprised at how their problems seem less demanding and overwhelming after a session. They create new solutions to old and outmoded ways of thinking and being. If you are interested in attending one of these sessions or would like to inquire as to John and Billie's availability to speak/present at your event, please contact them by or email or telephone:
